

Leash attachment kit for Hobie MirageDrive

Keep a leash on your MirageDrive. Attach leash ends to drive and boat to prevent loss of the drive while not secured in drive well.

Directions for Installation

Kit includes optional attachment hardware. Screw in eye fitting can replace an existing fitting of another type for easy attachment of the leash. If desired, install the strap eye with the provided hardware to create a custom attachment point. We recommend the forward surface of the drive well below the accessory mount.

Example of Attachments

The leash can be attached and removed at the eye on the hull or the drive can be detached via a snap buckle

Revised 6/3/2009

#74052101 LEASH KIT - MIRAGEDRIVE

Leash attachment kit for Hobie MirageDrive

Keep a leash on your MirageDrive. Attach leash ends to drive and boat to prevent loss of the drive while not secured in drive well.
