

REPOTTING SERVICES

Whether you are uncomfortable repotting a sentimental gift plant or it's solely for convenience, we're happy to help you repot your plant successfully here on site. We'll supply everything you need for your plant to be repotted and taken on its way. Please see the guidelines below for sizing and pricing. Please note that some repotting projects may require you leave your plant with us and pick up at a later time, depending on availability that day. Prior notice is appreciated for efficiency.

Boulevard Flower Gardens has trained professionals on staff and will repot your plant to the best of our ability and knowledge. We love all plants, and we want to ensure their success with the best repotting practices; however, we are not liable for your plants once they leave our property. Let's talk about what repotting your plant means and how we can avoid any potential shock to its environment.
