Hello. I have some questions
about the dell products here.

Hi! I'm Amanda, a live campus support rep, and I'll be glad to assist you today.

Cool. I'm searching for a new laptop for the upcoming school year, not sure where to begin.

Do you have any recommendations? What sort of information do you need?

> Absolutely Let's start by allowing me to get some basic information about your major, type of usage and desired laptop specifications. From there I can recommend which Dell may work best for you.
