STOPS**

== ARRIVING THIS SUMMER ==

MOTOR

> Powerful lightweight motor designed for optimal power transfer to deliver maximum distance and pleasure

> Extremely low weight of 2.88 kg

> Smooth, intelligent pedaling support that's easy to operate

> Narrowed pedal-to-frame width for a natural riding feel with increased comfort

> Sleek, compact, integrated design that blends in with bike frame

> Incredibly durable for all weather conditions

TECHNICAL SPECIFICATIONS

> Di2 in combination with NEXUS Inter-5 e-bike hub

> Delivers an output torque of 60Nm for solid climbing and quick acceleration

> Reliable, intuitive pedal-assist for a seamless riding experience

> Weatherproof and waterproof

> Power transmitted through a dedicated chainring

> Noise level: -2dB (vs E8000)

BATTERY

> Fast-charging, high capacity Li-Ion battery gets you there ... and back!

> 1,000 charge cycles with no significant power loss

> Comes equipped with new, compact design

> 504Wh (14Ah)

INFO DISPLAY

> Customize your ride, down to what data you view – and how you view it. The choice is yours

> Display: Sleek, bar-mounted, easy-to-read display with functions including speed, distance, trip time, clock, gear, estimated range, battery indication, and so much more

DRIVETRAIN

> Fully integrated drivetrain developed using Shimano's proven technology. Packaged in sleek, modern design.

> Lightweight drivetrain for increased responsiveness

> Combined with NEXUS Inter-5, dedicated e-bike internal gear hub, for 263% gear range, this is calibrated exactly to the range used for e-bikes

> Chain cover for excellent leg protection

> Chainring options: 38T

5-SPEED HUB

> The NEXUS Inter-5 is the new e-bike dedicated internal gear hub that's designed to handle all the unique demands specific to e-bike riding

> Designed specifically for an e-bike, it shifts smoothly under very high pressure

> Can withstand much higher pedaling forces

> Completely sealed for protection against the elements.

KANGAROO FIT

> Will be available on all our Winther Kangaroo models starting with Kangaroo Lite and Cargo

WHEN

> Expected Summer 2019
