THE PHILIP MARTIN'S WORLD

Our company

Mauro Trimiglioizzi founded Philip Martin's in 2006, a company born from the desire of creating Hair Care and Skin Care products based on an organic, natural and bio-compatible philosophy. The name is inspired by his children Filippo and Martina, synonym of purity and sincerity. With the birth of Tommaso, the third child, the Tommy Baby line for kids care was created. Philip Martin's is a guarantee for its clients which means wellness, efficiency and performing solutions. An entrepreneur model of success, unique in its kind, which has demonstrated to be winning in many worldwide distribution assets.

OUR ACADEMY

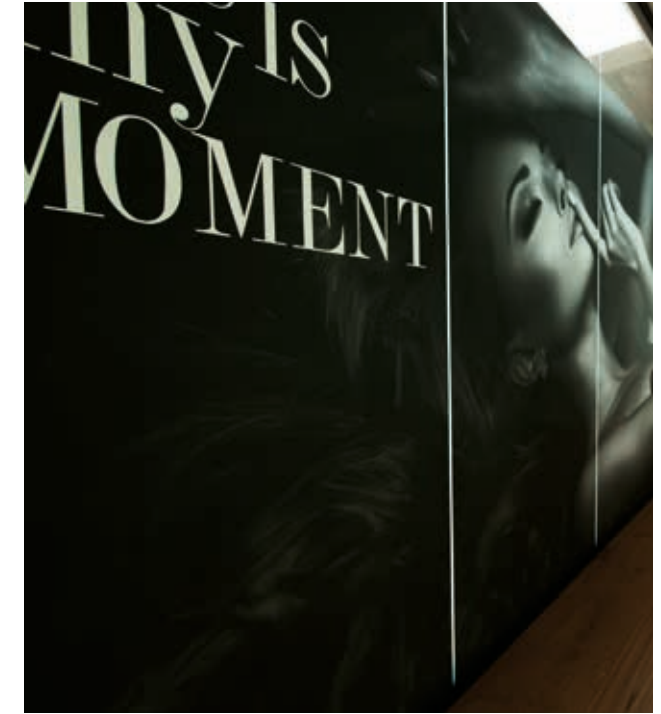

Contemporary Styling Training

The Philip Martin's Academy has been launched in 2017 after much thought and large request by most of the brand followers in order to provide them and future clients niche quality imprinting and advanced high level training. A boundless Academy with top-quality services made of innovative proposals which blend creativity to the increasing demand of absolute value and professionalism. An exciting journey where you can experience the inspiration of improving your technical know how, abilities and gain more knowledge, self-inspiration and style innovation. Our commitment is your satisfaction and your success. This is the Philip Martin's Academy.

The Skin Care Academy creates a warm and pleasant atmosphere in which the theoretical, technical & practical courses together with the rituals for each range are held. The product ranges are displayed just as in a Showroom and thus recreate moments of relax and wellness creating very specific and complete training sessions.

The Hair Care ambient recreates a cosy atmosphere which retraces all the facilities found in a quality hairdressing salon. This ambient is used for all the Academy courses of the Hair Care ranges which are scheduled in order to support and supply a better know how on the product range for both a theoretical point of view and also in order to enhance their uses and performances at best.

OUR PERSONALITY

Our way of thinking Wellness

Our brand logo retraces our philosophy. The ten fingers represent two interlaced hands and are the metaphor of a strong collaboration of people in the Philip Martin's world. The eye in the middle is the view of Philip Martin's towards the future. The products are created with vegetal ingredients of biological origin in order to offer strong efficiency and maximum attention to all our clients, our collaborators and the ambient. The Philip Martin's sensorial experiences make every treatment a special moment guaranteeing the maximum quality without compromising our creed. Our network is highly selective in order to ensure a continuing growth reaching levels of excellence.

OUR LABORATORY

How we give shape to our Philosophy

Philip Martin's is an Italian brand which creates biocompatible products by mixing quality wellness research together with chemical non-toxic elements. Our ingredients of natural and organic derivation such as the Jojoba Oil, the Orange of Calabria essence, the Aloe from Italian farming and the Mediterranean Olive Oil take the brand's image to maximum levels amongst the cosmetic world. The company uses the best know how and technologies to produce with success internationally, its products which are in a continuing evolution for the creation of new quality organic formulations without Sodium Lauryl Sulfate, Peg-Colorants, Plastics, Alcohol, Propylene Glycol, Methyl/Butyl Paraben respecting the high quality standards which distinguish the company since its beginning.

THE SOUL OF PHILIP MARTIN'S

Our Products

The success of our products derives from their characteristic of being natural and not aggressive to the skin and hair. They are ideal to be applied directly on the skin without using any accessories but only the hands. The versatility of their uses distinguishes them because many products can be used on the hair and on the skin individually or by mixing them together in order to enhance their performances. Every Philip Martin's product has its own specific ritual which improves the results. The Philip Martin's Academy holds many specific courses on the uses of the products and the importance on their INCI. Fundamentals for our clients.

HAIR collection

The exclusive formulations and the continuous research of high quality bio-compatible ingredients distinguish the Philip Martin's Hair Care products making every single treatment a moment of unique and exclusive luxury & wellness providing clients with high performance results. Each Hair Care product has a specific ritual created in order to enhance its potential and final result.

PURIFYING FAMILY

Purifying System

The Purifying family is dedicated to greasy, asphyxia scalp conditions and thin hair. These products help remove the excess sebum and regulate the hyperhidrosis preventing hair loss. They cleanse and tone up the skin giving a pleasant sensation of freshness and cleansing. Rinsed hair will remain clean for longer because the products perform delicately on the hydrolipidic surface of the scalp without creating alteration to the skin's pH.

HYDRATING FAMILY

Hydration System

The Hydrating Family is dedicated to dry scalp and hair cleansing. The scalp is our defence barrier against toxic micro-organisms. Climatic factors and continuous exposures to polluted environments make our skin and hair loose elasticity making it become drier and dehydrated. Thanks to the active ingredients which characterize this range by supplying to the hair and scalp more hydration they re-establish the hydrolipidic film on optimal levels. The hair will become soft, silky, bright and more elastic. A daily use is recommended in combination with the related creams in order to obtain the needed and pleasant results.

MORINGA SYSTEM

Running from Pollution

Living in the city puts us into a close daily contact with pollution and fine dust which is deposited on our scalp. All the harmful substances which are found in the atmosphere are absorbed by our hair. Through their outer cuticles the toxins deeply penetrate making our hair dull, weak and dry preventing its normal transpiration and compromising its health. The accumulation of polluting cells can also provoke hair loss and cutaneous irritations. Philip Martin's has created the Moringa system composed by three products based on Moringa Oleifera seed extract mixed with Aloe Barbadensis extract, Viola Tricolor extract and Birch extract which deeply cleanse and hydrate both the hair and the scalp. These plants are considered "pollution catchers" for their capacity to absorb the toxins by enhancing their dermo- purifying and protective actions.

HENNÉ

Philip Martin's Shading Herbs

The Philip Martin's selection of eight shading herb nuances are obtained thru minced and blended herbs. Just like color painting, the different Henné shades can be combined between each other, creating a recipe which brings to best desired results any hair type. A creative way of performing with colorings yet retracing and respecting the bio-concept of Philip Martin's.

HENNÉ

Philip Martin's Shading Herbs

Henné Philip Martin's

Our Henné treatments mix the Lawsonia Inermis (called Intense Copper) with a mixture of herbs which gives to the hair different shiny shades. Due to the fact that the Henné is totally natural, it does not bleach the hair. Its main properties are the following. Gives a different tonality to grey hair. Tonalizes, gives volume, hydrates and purifies. Gives the best repigmentation to damaged hair. Substitutes the normal coloring. Lightens the hair.

FACE FUNDAMENTALS

Basic Face Treatment

In order to protect, maintain a young, healthy and golden colored looking hydrated and tanned face skin, Philip Martin's has created three products: Deep Skin, Olivextract and Deep Sun. They are innovative and essential skin care serums ideal for a perfect face care. The synergy of these formulations provides the face skin with a strong cell stimulation which regenerates and protects the skin's surface giving it a natural tanned look. Deep Skin and Deep Sun have a soft, light and rapid absorption texture. If used together on a daily basis they hydrate and reduce the signs of aging giving a golden and uniformed color to the skin. The Olivextract repairs and protects the skin by giving back to it all that it has naturally lost over the years. The Jalugoji complex, the Brown sugar, the Botanical Complex and the Vegetal Squalene are some of the ingredients which enhance the uniqueness of these serums.
