9. Mixed by Me Thinking Putty Suggested Age 5+	Tues, August 10	30-minute class; Choose & Create 3 unique tins	\$10

1. Rock Painting • Ages 6+

This first activity is **FREE!** Get your friends and come to a Rock Painting Party! Hide them in the community to spread kindness, encouragement and happiness, one rock at a time! Each student can paint and take home 3 rocks.

2. LoopDeDoo Bracelet Making • Ages 6+

Creative AND Fun! You'll use our Loopeddoo® spinning looms to design and make fun and unique friendship bracelets. Keep one and give one to a friend!

3. Hey Clay • Ages 5+

Become a professional clay artist! Each Student will make 3 Hey Clay characters. This clay compound is lightweight, non-sticky, nontoxic, and stain-free clay for a great molding experience.

4. Do Art Coloring with Clay • Ages 5+

Color a pre-printed design board with clay to make your picture pop! Blend, marble, roll and place your clay to create art with texture and depth.

5. Offbits • Ages 6+

The Art of Spare Parts! OffBits combines off-the-shelf hardware components to design and create your own creation to give a new life to everyday hardware.

6. PYO (Paint-Your-Own) Vase • Ages 7+

Use your imagination to design a vase to keep or for a present! We will show you painting techniques to create the artistic effect you want—color mixing, brushing, sponging and more! You paint the vase in our store (keep the mess in our store) then bake the vase at home to set the design.

7. Flower Crowns • Ages 7+

Flower Crowns are fun to make by twisting realistic paper roses, beautiful berry bunches and ribbon ivy around the twig bases. You are the designer!

8. Plus Plus Event • Ages 5+

Plus Plus blocks are made in Denmark with zero waste. We will begin by teaching how to build your own spinning top. Then every student will be able to create their own design to take home.

9. Mixed by Me Thinking Putty • Ages 5+

Back by popular demand! Each student will be able to design and take home 3 mini tins of putty. Each tin begins with a clear putty, then the students can add their own colors and special effects to become the best inventor ever!
