

# A.C. COMPRESSOR MOUNT 104R

Big Block Chevy - Passenger Side  
Short Water Pump

**NOTE:** Some heads have 3/8" bolt holes and some have 7/16". This kit includes both sizes of bolts for these holes.

If your head has 7/16" it will be necessary to enlarge the corresponding holes in the mount to 7/16".

When installing the mount, start all bolts and mount the compressor before tightening.

(We use a belt length of 57-58" with this mount on installations in our shop. However; this can vary with the diameter of your pulleys.)

**As with any part of this nature, make sure it fits your application before painting or plating. Parts that have been painted, plated or modified may not be returned.**
