# KEY FEATURES

## RESPONSIVE PERFORMANCE

- A German engineered, automotive quality Brose mid drive motor delivers exactly the right amount of extra power. It feels like you're one with the bike.
- A state-of-the-art battery uses the same advanced lithium-ion cells as an electric car. It weighs less than a housecat, and it's built into the frame for sporty handling.

## SMOOTH RIDE

A carbon belt drive gives you a whisper-quiet ride with no messy chain grease. It's been tested to last over 10,000 miles – which is almost halfway around the earth.

## EASY PEDALING & SMOOTH SHIFTING

An 8-speed internally geared hub provides shifting that's as smooth as butter – even at a complete stop.
