KEY FEATURES

BUILD IT YOUR WAY

With purpose-built accessories included, customization is at your fingertips, allowing you to tailor its configuration to suit your unique needs. Additionally, a wide range of after-market accessories provides endless possibilities for further personalization – it's like a Swiss Army Knife but with the added thrill of the ride.

ADVANCED RIDING TECHNOLOGY

The Cargo offers a comfortable and enjoyable riding experience. Beyond its versatile design, this eBike boasts advanced riding features, including an illuminated color display offering easy control of our proprietary propulsion software that delivers the elevated riding experience signature to Pedego.

A LEGACY OF QUALITY & PEACE OF MIND

Delivered fully assembled and ready for pickup at one of our 200 dealers, the Cargo boasts quality components and materials that exceed industry standards. As part of the Pedego brand, the Cargo inherits a legacy of excellence, earning a remarkable 4.9 out of 5-star consumer satisfaction rating from thousands of riders.

SMALL DETAILS MAKE A BIG DIFFERENCE

SAFETY MATTERS MOST - UL2849

UL 2849 Certification goes beyond assessing just the battery, employing a comprehensive system-oriented safety approach to mitigate risks effectively. This certification involves rigorous testing of each significant component within the electric powertrain, as well as evaluating the system as a whole. By adhering to the highest safety standards, it aims to minimize potential risks and instill a sense of confidence and peace of mind for the owner.

The evaluation encompasses the entire electric powertrain and system, ensuring the thorough examination of individual components for optimal safety assurance. In addition to the certification, PeDEGO goes even further using LG Cells and resin potting on the battery components to add an additional level of safety.
