

CARE FOR YOUR MOUNTCASTLE HAT

Your Mountcastle hat is a hand-crafted, quality item, and with proper care you can maintain its appearance and durability for the life of the product.

Mountcastle felt hats are not inexpensive, disposable hats that can be treated roughly or crushed into your school bag.

To prolong the life of your Fur Felt or Wool Felt hat, we recommend to follow the below instructions:

- Always brush your hat anti-clockwise.
- When your hat is not being worn, do not rest the hat on the brim, stand it on the crown.
- Should your hat become wet, allow it to dry naturally and do not put your hat away when it is moist with perspiration or wet.
- Do not allow your hat to dry in the direct sunlight.
- If after brushing, a soiled spot remains, slightly dampen a clean cloth with cleaning fluid or thinners and rub lightly.
- The hat can be treated with a silicon waterproofing spray.
- **DO NOT MACHINE WASH, TUMBLE DRY OR PLACE IN DISHWASHER.**
- **DO NOT DRY CLEAN.**
- **DO NOT** store your hat in the car.

Please note: If your hat has been wet due to rain please ensure that you dry in a well aired, shaded area prior to storing.

Caring for your hat in ways contrary to the above may void your warranty.
