

Warranty

Bulls

1. Frame Warranty: An extended warranty is often offered on the bicycle frame, covering manufacturing defects in the frame for a period of 5 years!

2. Bosch Electrical System Warranty: The Bosch electrical system, including the motor, battery and other electronic components, is generally covered by a separate warranty. The electrical system, excluding the battery, is covered for 2 years. The battery is covered for 2 years or 500 full charge cycles.

3. Component Warranty: Other bicycle components, such as the brakes, derailleurs, wheels, etc., may also be covered by specific warranties against manufacturing defects.

4. After-Sales Service: Bulls dealers generally offer labour warranties for repairs performed under warranty. This may include free adjustments or free repairs for a certain period after purchase.
