# WHAT IS A PERSONAL SHOPPING EXPERIENCE?

---

Our personal shopping experience is an individual appointment with one of our stylists. We start by learning more of who you are and what you're looking for. It's important to get to know our customers because what you do for work and leisure play a part in how you dress. We don't want to change our your style, instead we work with you to enhance your image and put your best foot forward. Whether it's an outfit for an occasion, or you just need a few pieces added to your wardrobe, we're here for you!

# Why choose a personal fitting instead of just walking in?

---

Sometimes shopping can be scary. You don't even know where to start. Your sizes may differ from brand to brand. You don't have time (or the patience) to search on your own. Our personal fittings make shopping painless and FUN!

We offer a variety of cocktails (beer, seltzers, liquor) and small bites to enjoy during your appointment.

Afraid of missing your favorite sports team play? No worries! We have a lounge with a TV that we will put on whatever you'd like to watch!
