70 gr. - SZ. 3' x 500' length

100 gr.- 3' x 6900' length  
TXDOT Approved

Woven SF 77 Gram  
Master Roll, SZ. 3' x 9900' length

## Hardwood Stakes

### Available Sizes:

1.25 in. x 1.25 in. x 48 in.  
Nominal

1.00 in. x 1.00 in. x 60 in.  
Nominal

1.5 in. x 1.5 in. x 48 in.  
Nominal

## Safety Fence

Safety Fence, **8 lb.** light-weight, green or orange  
SZ. 4' x 100' length

Safety Fence, **12 lb.** medium weight, green or orange, SZ. 4' x 100' length

Diamond Mesh Fence  
Orange, Heavy Duty **20 lb.**  
SZ. 4' x 100' length

## Grate Bags

**Grate bags** mount under the grate inside the catch basin and is a cost-effective, easy way to prevent sediment, trash and debris from entering the drainage system.

Available in a variety of sizes.

## Erosion Control Blankets

### Blanket Options:

US-2S Double Net Straw,  
Natural - TXDOT  
SZ. 8' x 112.5' length

Double Net, 70% Straw  
30% Coconut Erosion Control Blanket-US-2SC  
SZ. 8' x 112.5' length

Other options available upon request

## Sand Bags

**Sandbags** are made of woven polypropylene which can be used for such purposes as flood control, securing road signage, holding temporary fence or portable toilets in place and traffic control. Size: 14.5" x 26"  
**Colors: orange & white**

### Gabion Baskets

**Gabion baskets** come in various sizes and dimensions. Gabions are used in civil engineering, road building, military applications and architectural decorations.

### Bio-Friendly Netting Pegs

**Bio-Friendly Netting Pegs** are an environmentally friendly way to secure erosion control products, like logs, wattles, and mats. Designed to disintegrate over time into compost, these stakes offer a low-maintenance alternative to standard metal staples and pins. 6" 1000 ct. or 12" 500 ct.

### Welded Field Wire

#### Welded Field Wire Options:

14 Gauge, (4 x 4)  
SZ. 2 ft. x 100 ft.

14 Gauge, (2 x 4)  
SZ. 2' ft. x 100 ft.

### Straw Wattles

**Straw wattles** provide perimeter protection along contours or at the base of slopes, inlets and roadways to reduce soil erosion, runoff and retain sediment. **Sizes include: 9 in. x 10 ft. , 9 in. x 25 ft. and 12 in. x 20 ft.**

### Concrete Washout

**The Outpak Corrugated Washout** is the right choice when pouring a concrete job. Per local, state, & federal regulations, it is critical to ensure that concrete run-off waste from cleaning your tanks, chutes and tools don't get into the ground-water or sewer system.

### Wattle Stakes

**Wattle stakes** are for use in construction, erosion control and turf management. They are commonly used to secure coconut or straw wattles, depending on wattle diameter & local ordinances. **Sold individually or by the bundle.**

### Sod Staples

**Sod Staples** are perfect for fastening & installing erosion control blankets.

**Available in 6" or 8" length, made of 11-gauge wire.**

*Pins down landscape fabrics and weed barrier fabrics.*

### Curb Inlet Guard, 75"

**Curb Inlet Guard** is a patented, low cost system which reduces sedimentation into curb inlets. The system is easy to install, clean, has a long life and is reusable.

**Size: 75 inch**

### Geotextile Fabrics

Each **Geotextile** type has it's benefits and uses, depending on project requirements for strength, durability, and drainage. The basic difference between the two lies not in how the geotextiles function, but rather in how they are manufactured.

### Superior Landscape Fabric

**Sizes: 3' x 50' • 3' x 100'**

Our **Landscape Fabric** features polyester fibers spun bound into a swirling web like pattern. The result is superior fiber distribution creating a unique weed prevention fabric and great water and air permeability. **Color: gray**

### **"Z" Dyke Curb Inlet Protection Master Roll**

### **Master Roll** *Custom Fabricated for Curb Inlet Protection*

- 6 oz. Fabric

2 inch x 4 inch wire mesh openings  
12.5 gauge welded wire

### **Mini Hopper with 6' Hose**

This **Mini Hopper** attaches to the end of a ready-mix chute to distribute concrete easily and accurately. It comes supplied with a 6 ft. long, 8" diameter trunk and sturdy chains for hanging in place. Additional hose can be purchased.

### **DuraWattle**

**DuraWattle** is a reusable alternative to straw wattles and silt fence in several sediment control applications. It is designed to be driven over by heavy traffic. Size Options: 5.5" x 18' w/18" flap or 5.5" x 12' w/18" flap Comes with durawattle nails.

### **Geogrid**

We offer high performance **Geogrid** for base stabilization, embankment protection, erosion control, soil and slope reinforcement, retaining walls and more. Geogrids reduce aggregate thickness requirements and/or extend roadway performance life.

### **Ultraviolet Zip Ties**

Our **UV Zip Ties** are specifically manufactured to be used for continuous or extended exposure to outdoor use and UV light.

**Sizes: 7.6 inch  
8 inch or 11 inch**

**Professional Quality**

### **Jute Mesh**

**Jute Mesh** is a truly versatile natural fiber of a bamboo-like plant. It is one of the most widely used fibers and the most dependable, proven erosion product available.

*Rolls are 4' X 225' and palletized 12 rolls to a pallet.*

### **Rebar Ties** **6 inch, 17 gauge**

Our 6" black annealed 17-gauge **Rebar Ties** can be used to attach welded wire to fence posts at various job sites, construction sites and on the farm. There are 5000 per roll. Smaller quantities can be purchased.

### **Sod Staple Setter**

Quickly and easily install erosion control blankets, landscape fabric, and geotextile fabric with the **Sod Staple Setter Staple Driver** hand tool.

**Overall length: 42"**

### **Coconut Coir Log with Natural Net**

**Coconut Coir Logs** are a popular option and are 100% biodegradable. They are used for erosion control in areas that have greater exposure to water contact.

### **Concrete Washout Signs**

Our **Concrete Washout Signs** are made of corrugated plastic for long term use. They measure 18" x 24" and have a wooden OR a metal stepper stake attached. You can also purchase the sign without a pre-attached stake.
