- Inside Measurement: 635mm (25")
- Outside Measurement: 1143mm (45")
- Height: 406mm (16")
- Grill Width 711mm (28")

StackStone Fire Pit

## Colours:

Victorian

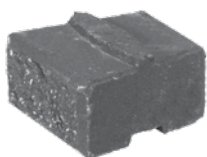

Charcoal

Rustic

## Installation:

1. Excavate a 45" diameter, 6" deep area.
2. Fill the area with 4" angular gravel (road crush) and compact to 2" below grade ensuring area is level.
3. Place the 1st row on the prepared base by alternating Standard and Tight Radius units. Note you will use eight Standard and eight Tight Radius units per row.
4. Sweep the tops of the stones clean.
5. Place the 2nd row on top of the 1st row by centering the stone on the joint of the two stones below. Alternate between Standard and Tight Radius units.
6. Repeat for the third row.
7. For the top row, alternate Coping and Tight Radius unit and place spark arrestor on top layer.

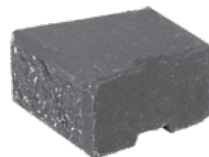

## Fire Pit Components

Standard Unit

Tight Radius Unit

Coping Unit

25" Spark Arrestor
