

At Home Ring Sizing

Sometimes you can't get to the store to get your finger sized for ring purchasing.

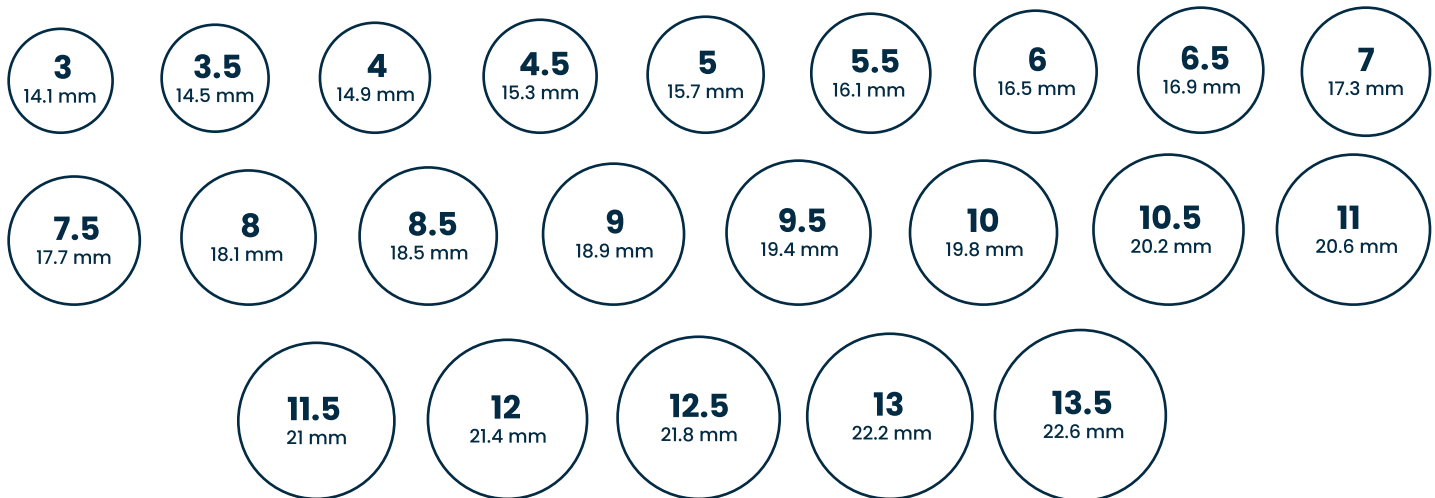

Use this handy method to get a close representation of your ring size for online ring orders!

Print this page at home, confirming that it is printing at 100% page scaling. The bar below should match the length of most standard credit cards. Alternatively, you can use a ruler to measure the 1 inch and 30 mm lines for accuracy.

Have an existing ring that fits? Measure it here!

Place your ring on the circles below, matching the inside edge of the ring to the circle closest in size. If you fall between two sizes, choose the larger of the two.

No ring? No problem! Use this paper ring sizer.

Cut out the ring sizer below. Cut the vertical slit and wrap the ruler around the base of your finger, pulling the tail through the slit until it fits comfortably around your finger.
