

## Job Description: Bicycle Mechanic

**JOB TITLE:** Bicycle Mechanic

**SCHEDULE:** Full-time or Part-Time; weekdays and weekends

Onion River Outdoors is a community-minded gear and apparel shop in Montpelier, Vermont. We are Central Vermont's recreation experts, opening doors to the outdoors by supporting our customers' hiking, biking, running, camping, skiing, snowshoeing, and other outdoorsy pursuits. We are passionate about the Green Mountains, our local community, and the outdoor activities we do here.

We seek an energetic, positive, skilled bike mechanic to join our team. Qualified applicants will have a minimum of two years of recent bicycle repair experience, including working knowledge of current bike technology (suspension overhaul service, mountain and road hydraulic disc brake setup and maintenance, wheel-building, etc.). Applicants must be organized, personable, willing to learn, and be able to work efficiently and effectively as a member of a team in a customer-focused environment. While ORO is a strengths-based workplace, building on the expertise of each team member, all staff pitch in to help with any job that needs to be done. Experience working on e-bikes is a plus, as is previous retail work. Our dream candidate for this position would also have ski tuning experience and the ability to share your passion about biking via group rides and clever use of social media.

Schedule is part-time or full-time; some weekends and holidays. Please visit [onionriver.com](http://onionriver.com) to learn more about us and to find the email address for your resume and cover letter.
