Variable Rate Services

Diagnostic Fee

For instruments experiencing issues with electronic components an initial diagnostic fee will apply. The minimum charge is \$35 and the maximum charge is \$75. For complex issues that require further troubleshooting, an estimate will be sent to the customer for approval before proceeding further.

Hourly Rate

For services not included in the fixed rate list below, a rate of \$75/hr shall apply. Service fee excludes cost of parts and consumables.

Amplifiers

We do repair and diagnose problems of a selection of amplifiers. Inquire by phone (you can also text us at 506-458-8286), email, or in-store to determine if we can service your amp.

Fixed Rate Services

Materials

Service rates exclude shop materials, strings, parts, electronics, or other materials required to perform the service.

Restrings

If electing to change string gauges during a restring, a full setup may be required. We will request approval to proceed with setup prior to performing setup.

Dovetail	Range 500 - 650

Services We Do Not Offer

We can perform minor finish touch-ups in some situations; however, we cannot perform complete refinishing of instruments.

Third Party Repair Providers

We'd love to do it all, but our philosophy is that if we can't do it great then it's best left to another expert. Below is a list of other local repair technicians by instrument.
