

# TierraCast Morocco Bracelet

*Ginkgo beads show off our Temple  
Stitch-in clasp to perfection.*

Design by: Tracy Gonzales

skill set  
not too hard

## Supplies

- 1 Temple Stitch-in Magnetic Clasp  
(94-6242-18)
- 38 Faceted 5mm Spacer Bead  
(93-0423-18)
- 19 Ginkgo beads, color A
- 36 Ginkgo beads, color B
- Size 11 seed beads
- Fireline or Wildfire Beading Thread, 10 lb
- Stop bead
- Optional: Hypo Cement adhesive

## Required Tools

Thread cutters, beading needle, beading  
mat, Optional: Sticky or Tacky beading mat

## Finished Size

Approx. 6.5 inches

## Instructions

**TIP:** This project assumes basic  
beadweaving experience. Keep thread  
tension firm throughout. At the ends of the  
bracelet remember to attach one clasp  
component face up and the other face  
down.

1. Arrange beading pattern on mat  
with 19 Color A ginkgo beads as the  
center row (Row 1), and 18 Color B  
beads as the two outer rows (Rows  
2 & 3).
2. Thread needle with 5 ft of beading  
thread. String stop bead and position  
it 10" from the end.
3. Pick up one size 11 seed bead, then  
sew through one loop of a clasp  
component making sure it is face up.  
(See Tip.)
4. Pick up one seed bead. At the end of  
the bead pattern \*pick up one Color A  
bead, and one Color B bead\* paying  
attention to position so that they will  
nestle together. (Fig 1)
5. Repeat \* through \* 17 times. Pick  
up final Color A bead. Pull thread to  
nestle beads together and take up  
slack. This forms Rows 1 and 2.
6. Pick up one seed bead, then sew  
through one loop of second clasp  
component, making sure it is face  
down. (See Tip).
7. Pick up one seed bead, one spacer  
bead, and one seed bead, then sew  
through last Color B bead placed.  
(Fig 2)
8. Repeat Step 7 17 times. Pull thread  
to firm up tension.
9. Pick up one seed bead and one  
spacer bead. Sew through first seed  
bead placed in Step 3, through clasp  
loop, and through next seed bead.
10. Sew down through Rows 1 and 2 to  
other end.
11. Sew over the tip of the last Color A  
bead and down through second hole  
of the same bead, then pick up first  
Color B bead of Row 3.
12. Repeat \* through \* 17 times form  
Row 3.
13. Sew through final Color A bead. Pick  
up one seed bead, then sew through  
second clasp loop.
14. Repeat Steps 7 and 8.
15. Pick up one seed bead, one spacer  
bead, and one seed bead, then sew  
through clasp loop.
16. Pick up final seed bead then sew  
through Rows 1 and 3 to other end.
17. Repeat sewing pattern down outside  
of Row 3 to reinforce, then weave  
back down Row 2 a few beads,  
knotting twice. Trim thread.
18. Thread needle onto tail and repeat  
Step 17 down the outside of Row 2.
19. Optional: Add a tiny drop of adhesive  
where the thread crosses the top of  
the ginkgo bead placed in Step 11 to  
keep the thread from slipping to the  
front or back of the bead. Allow to dry.
