## Technique

Basic Filigree Wrapping

### Step 1 Create the filigree base setting.

Turn in the edges of the filigree to approximately the same size as the stone or focal using rosary pliers.

### Step 2 Secure the filigree base setting.

- A: Set the stone or focal inside the filigree.
- B: Crimp down the filigree edges to secure the stone using the chain nose pliers. Go through the edges again and re-crimp until they are symmetrical and secure.
