

HR Digaron-SW 90mm f/5.6 Tilt

Rodenstock Telephoto XT lens

Expressive view. Consistent quality.

The Phase One XT 5° Tilt panel introduced to the Rodenstock 90mm f/5.6 provides expressive versatility to an otherwise high-quality telephoto lens. The additional depth of field and perspective control, together with the 24mm shift travel of the XT Camera, allows for complete focus control from foreground to infinity, all in one shot.

XT Rodenstock

HR Digaron-SW 90mm f/5.6 Tilt

Specifications
