

## MasterBlend Redline Powder PreSpray

## 1 PRODUCT AND COMPANY IDENTIFICATION

Product Identifier: MasterBlend Redline Powder PreSpray  
Common Name: Heavy-Duty Powdered Carpet Pre-Spray  
SDS Number: 09-140409  
Product Code: 1105  
Revision Date: 1/25/2024  
Version: 2  
Internal ID: X780030  
Product Use: General Use

Supplier Details: MasterBlend Indiana LLC  
4345 W. 96th St  
Indianapolis, IN 46268

Phone: (800) 525-9644  
Email: info@masterblend.net  
Web: www.masterblend.net  
Emergency: INFOTRAC (800) 535-5053 (USA and Canada); +1 (352) 323-3500 (International)

## 2 HAZARDS IDENTIFICATION

## Classification of the Substance or Mixture

GHS Classification in Accordance with 29 CFR 1910 (OSHA HCS):

Health, Skin corrosion/irritation, 2

Health, Serious Eye Damage/Eye Irritation, 1

## GHS Label Elements, Including Precautionary Statements

GHS Signal Word: **DANGER**

GHS Hazard Pictograms:

## GHS Hazard Statements:

H315 - Causes skin irritation

H318 - Causes serious eye damage

## GHS Precautionary Statements:

P264 - Wash skin thoroughly after handling.

P270 - Do not eat, drink or smoke when using this product.

P273 - Avoid release to the environment.

P280 - Wear protective gloves/ eye protection/ face protection.

P280 - Wear protective gloves/ protective clothing/ eye protection/ face protection.

P301 + P312 - IF SWALLOWED: Call a POISON CENTER or doctor/ physician if you feel unwell.

P301 + P330 + P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

P303 + P361 + P353 - IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower.

P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 - Immediately call a POISON CENTER or doctor/ physician.

## 3 COMPOSITION/INFORMATION OF INGREDIENTS

Classification of the substance or mixture is not classified according to the Globally Harmonized System (GHS)

**Chemical Ingredients**

| CAS#         | %      | Chemical Name                                                  |
|--------------|--------|----------------------------------------------------------------|
| 7758-29-4    | 25-50% | Triphosphoric acid, sodium salt (1:5)                          |
| 7757-82-6    | 15-25% | Sulfuric acid disodium salt                                    |
| 533-96-0     | 5-15%  | Carbonic acid, sodium salt (2:3)                               |
| 7601-54-9    | 1-5%   | Phosphoric acid, sodium salt (1:3)                             |
| 64-02-8      | 1-5%   | Chelating Agent                                                |
| Trade Secret | 1-5%   | Alkyl Polyglycoside Surfactant                                 |
| 68439-46-3   | 1-5%   | Alcohols, C9-11, ethoxylated                                   |
| 527-07-1     | 1-5%   | D-Gluconic acid, monosodium salt                               |
| 7722-88-5    | 1-5%   | Diphosphoric acid, sodium salt (1:4)                           |
| 6834-92-0    | 1-5%   | Silicic acid (H <sub>2</sub> SiO <sub>3</sub> ), disodium salt |
| Trade Secret | 1-5%   | Sodium Alkyl Naphthalene Sulfonate                             |
| Trade Secret | <1%    | Fragrance                                                      |

**4 FIRST AID MEASURES**

|               |                                                                                                                                                                                                                               |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation:   | If symptoms develop, move victim to fresh air and keep at rest in a position comfortable for breathing. If symptoms persist, obtain medical attention.                                                                        |
| Skin Contact: | Brush off loose particles from skin. Promptly flush skin with water.                                                                                                                                                          |
| Eye Contact:  | Immediately flush eyes with large amounts of water for at least 15 minutes, removing contacts, if present, and lifting eyelids occasionally to facilitate irrigation. Seek medical attention if irritation persists           |
| Ingestion:    | Do not induce vomiting unless directed by a physician. Seek immediate medical attention. Rinse mouth with water. Drink large quantities of water if person is conscious and alert. Never give water to an unconscious person. |

**5 FIRE FIGHTING MEASURES**

Use water spray, fog, carbon dioxide (CO<sub>2</sub>), foam or dry chemical  
Unsuitable extinguishing media: Water jet as it may spread fire  
Hazardous Combustion Products:  
nitrogen oxides (NO<sub>x</sub>), carbon monoxide (CO), carbon dioxide (CO<sub>2</sub>)

**6 ACCIDENTAL RELEASE MEASURES**

Use personal protective equipment. Ventilate area and wash spill site after material pickup is complete.  
Do not discharge into drains.

**7 HANDLING AND STORAGE**

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Handling Precautions: | Measures to prevent fire as well as aerosol and dust generation.<br><br>Use local and general ventilation. Avoidance of ignition sources. Keep away from sources of ignition - No smoking. Take precautionary measures against static discharge. Use only in well-ventilated areas. Ground/bond container and receiving equipment. Use only non-sparking tools.<br><br><b>Warning</b><br>Places which are not ventilated, e.g. unventilated below ground level areas such as trenches, conduits and shafts, are particularly prone to the presence of flammable substances or mixtures. Vapors are heavier than air, spread along floors and form explosive mixtures with air.<br><br><b>Advice on general occupational hygiene</b><br>Wash hands after use. Do not to eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs. |
| Storage Requirements: | Keep in a cool ventilated area. Keep container tightly closed. Keep out of reach of children                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

**8 EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Engineering Controls:**

Triphosphoric acid, sodium salt (1:5) cas#:(7758-29-4) [2550] : No data.

Sulfuric acid disodium salt cas#:(7757-82-6) [1525] : No data.

Phosphoric acid, sodium salt (1:3) cas#:(7601-54-9) [15] : No data.

D-Gluconic acid, monosodium salt cas#:(527-07-1) [15] : No data.

Diphosphoric acid, sodium salt (1:4) cas#:(7722-88-5) [15] : No data.

Silicic acid (H<sub>2</sub>SiO<sub>3</sub>), disodium salt cas#:(6834-92-0) [15] : No data.

**Personal Protective Equipment:****Personal protective equipment**

**Respiratory protection:** Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

**Hand protection:** Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching gloves outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. Full contact Material: Nitrile rubber Minimum layer thickness: 0.11 mm Break through time: 480 min Material tested: Dermatrill (KCL 740 / Aldrich Z677272, Size M) Splash contact data source: KCL GmbH, D-36124 Eichenzell, phone +49 (0)6659 87300, e-mail sales@kcl.de, test method: EN374 If used in solution, or mixed with other substances, and under conditions which differ from EN 374, contact the supplier of the CE approved gloves. This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be construed as offering an approval for any specific use scenario.

**Eye protection:** Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

**Skin and body protection:** Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

**Hygiene measures:** Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

Triphosphoric acid, sodium salt (1:5) cas#:(7758-29-4) [2550] : No data.

Sulfuric acid disodium salt cas#:(7757-82-6) [1525] : No data.

Phosphoric acid, sodium salt (1:3) cas#:(7601-54-9) [15]

**Components with workplace control parameters**

STEL      5 mg/m<sup>3</sup>      USA. Workplace Environmental Exposure Levels (WEEL)

D-Gluconic acid, monosodium salt cas#:(527-07-1) [15] : No data.

Diphosphoric acid, sodium salt (1:4) cas#:(7722-88-5) [15]

**Components with workplace control parameters**

TWA      5 mg/m<sup>3</sup>      USA. OSHA - TABLE Z-1 Limits for Air Contaminants - 1910.1000

TWA      5 mg/m<sup>3</sup>      USA. NIOSH Recommended Exposure Limits

Silicic acid (H<sub>2</sub>SiO<sub>3</sub>), disodium salt cas#:(6834-92-0) [15] : No data.

| 11 | TOXICOLOGICAL INFORMATION |
|----|---------------------------|

Triphosphoric acid, sodium salt (1:5) cas#:(7758-29-4) [2550]

Information on toxicological effects

Acute toxicity:

Oral LD50 LD50 Oral - rat - 3,900 mg/kg

Inhalation LC50 no data available

Dermal LD50 LD50 Dermal - rabbit - 4,640 mg/kg

Other information on acute toxicity

Skin corrosion/irritation: Skin - rabbit - No skin irritation

Serious eye damage/eye irritation: Eyes - rabbit - No eye irritation

Respiratory or skin sensitisation: no data available

Germ cell mutagenicity: no data available

Carcinogenicity:

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity: no data available

Teratogenicity: no data available

Specific target organ toxicity - single exposure (Globally Harmonized System):  
no data available

Specific target organ toxicity - repeated exposure (Globally Harmonized System):  
no data available

Aspiration hazard: no data available

Potential health effects: Inhalation May be harmful if inhaled. May cause respiratory tract irritation. Ingestion May be harmful if swallowed. Skin May be harmful if absorbed through skin. May cause skin irritation. Eyes May cause eye irritation.

Signs and Symptoms of Exposure: Gastrointestinal disturbance, To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

**Synergistic effects: no data available**

**Additional Information:**

**RTECS: YK4570000**

**Sulfuric acid disodium salt cas#:(7757-82-6) [1525]**

**Information on toxicological effects**

**Acute toxicity:**

**LD50 Oral - mouse - 5,989 mg/kg**

**Inhalation: no data available**

**Dermal: no data available**

**Skin corrosion/irritation: no data available**

**Serious eye damage/eye irritation: no data available**

**Respiratory or skin sensitisation: no data available**

**Germ cell mutagenicity: no data available**

**Carcinogenicity:**

**IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.**

Germ cell mutagenicity: no data available

Carcinogenicity:

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity: no data available

Specific target organ toxicity - single exposure: no data available

Specific target organ toxicity - repeated exposure: no data available

Aspiration hazard: no data available

Additional Information:

RTECS: Not available

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

**Diphosphoric acid, sodium salt (1:4) cas#:(7722-88-5) [15]**

**Information on toxicological effects**

**Acute toxicity:**

Oral LD50 LD50 Oral - rat - > 300 - < 2,000 mg/kg

Inhalation LC50 no data available

Dermal LD50 LD50 Dermal - rabbit - 7,940 mg/kg

Other information on acute toxicity

**Skin corrosion/irritation:** Skin - rabbit - No skin irritation

**Serious eye damage/eye irritation:** Eyes - rabbit - Risk of serious damage to eyes.

**Respiratory or skin sensitisation:** no data available

**Germ cell mutagenicity:** no data available

**Carcinogenicity:**

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**Reproductive toxicity:** no data available

**Teratogenicity:** no data available

**Specific target organ toxicity - single exposure (Globally Harmonized System):**  
no data available

**Specific target organ toxicity - repeated exposure (Globally Harmonized System):**  
no data available

**Aspiration hazard:** no data available

**Potential health effects:** Inhalation May be harmful if inhaled. Causes respiratory tract irritation. Ingestion Toxic if swallowed. Skin May be harmful if absorbed through skin. Causes skin irritation. Eyes Causes eye irritation.

**Signs and Symptoms of Exposure:** Effects due to ingestion may include:, Nausea, Vomiting, To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

**Synergistic effects:** no data available

**Additional Information:**

**RTECS:** UX7350000

**Silicic acid (H<sub>2</sub>SiO<sub>3</sub>), disodium salt cas#:(6834-92-0) [15]**

**Information on toxicological effects**

**Acute toxicity:**

LD50 Oral - rat - 1,153 mg/kg

Inhalation: no data available

**Dermal:** no data available

**Skin corrosion/irritation:** Skin - rabbit Result: Severe skin irritation - 24 h

**Serious eye damage/eye irritation:** no data available

**Respiratory or skin sensitisation:** no data available

**Germ cell mutagenicity:** no data available

**Carcinogenicity:**

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity: no data available

**Reproductive toxicity - rat - Oral:**

Effects on Newborn: Stillbirth. Effects on Newborn: Live birth index (# fetuses per litter; measured after birth). Effects on Newborn:

Weaning or lactation index (e.g., # alive at weaning per # alive at day 4).

no data available

Specific target organ toxicity - single exposure: May cause respiratory irritation.

Specific target organ toxicity - repeated exposure: no data available

Aspiration hazard: no data available

**Additional Information:**

RTECS: VV9275000

burning sensation, Cough, wheezing, laryngitis, Shortness of breath, spasm, inflammation and edema of the larynx, spasm, inflammation and edema of the bronchi, pneumonitis, pulmonary edema, Material is extremely destructive to tissue of the mucous membranes and upper respiratory tract, eyes, and skin.

|----|------------------------|

Triphosphoric acid, sodium salt (1:5) cas#:(7758-29-4) [2550]

**Information on ecological effects****Toxicity:**

Toxicity to daphnia EC50 - Daphnia - 276.61 mg/l - 48 h.  
and other aquatic invertebrates

Persistence and degradability: no data available

Bioaccumulative potential: no data available

Mobility in soil: no data available

PBT and vPvB assessment: no data available

Other adverse effects: no data available

Sulfuric acid disodium salt cas#:(7757-82-6) [1525]

**Information on ecological effects****Toxicity:**

Toxicity to fish LC50 - Gambusia affinis (Mosquito fish) - 120 mg/l - 96 h.

LC50 - Lepomis macrochirus - 4,380 mg/l - 96 h

Toxicity to daphnia and Immobilization EC50 - Daphnia - 3,150.21 mg/l - 48 h.  
other aquatic invertebrates

Persistence and degradability: The methods for determining biodegradability are not applicable to inorganic substances.

Bioaccumulative potential: no data available

Mobility in soil: no data available

Results of PBT and vPvB assessment PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

**Other adverse effects:** An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Harmful to aquatic life.

**Phosphoric acid, sodium salt (1:3) cas#:(7601-54-9) [15]**

**Information on ecological effects**

**Toxicity:**

**Toxicity to fish LC50 - Gambusia affinis (Mosquito fish) - 28.5 mg/l - 96 h.**

**Persistence and degradability:** no data available

**Bioaccumulative potential:** no data available

**Mobility in soil:** no data available

**PBT and vPvB assessment:** no data available

**Other adverse effects:** An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

**Harmful to aquatic life.**

**no data available**

**D-Gluconic acid, monosodium salt cas#:(527-07-1) [15]**

**Information on ecological effects**

**Toxicity:** no data available

**Persistence and degradability:** no data available

All ingredients for this product are listed or are exempt or excluded from being listed on the TSCA inventory.

SARA Title III chemicals: This product does not contain any chemicals which are subject to the reporting requirements.

California Prop 65 chemicals: None Known

CERCLA reportable quantity: This product, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355).

RCRA hazardous waste no: N/A

This product does not contain chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

#### Regulatory Code Legend

CERCLA = Superfund clean up substance

CSWHS = Clean Water Act Hazardous substances

MASS = MA Massachusetts Hazardous Substances List

OSHA = OSHA Workplace Air Contaminants

PA = PA Right-To-Know List of Hazardous Substances

TSCA = Toxic Substances Control Act

TSCAACTV = TSCA Active Chemicals

TXAIR = TX Air Contaminants with Health Effects Screening Level
