# HEART OF THE HIDE® TRADITIONAL

For more than 65 years, Rawlings Heart of the Hide<sup>®</sup> gloves have been a staple for many of baseball's most well-known pros, and that tradition continues today. Our Heart of the Hide traditional gloves feature all the same premium materials you expect in a pro model glove – high quality US steerhide leather that forms to the perfect shape and pocket, deer tanned cowhide palm lining and soft full-grain finger back linings for ultimate comfort and pro grade leather laces for durability and strength. Marked by established pro patterns and classic color ways, these gloves pay homage to the rich history of Rawlings gloves while incorporating the latest technology and performance attributes – the best of both worlds.

### WHAT IS ARTIFICIAL INTELLIGENCE (AI)?

In its simplest form, artificial intelligence (AI) is a field, which combines computer science and robust datasets, to enable problem-solving. It also encompasses sub-fields of machine learning and deep learning, which are frequently mentioned in conjunction with artificial intelligence. These disciplines are comprised of AI algorithms which seek to create expert systems which make predictions or classifications based on input data. (Source: IBM.com)

## HOW CAN AI HELP MY SWING?

Whether it's your batting average or swing velocity, baseball is a game of numbers where the smallest variance can make the biggest difference. Working with the most technologically advanced and skilled experts in this area, Rawlings has pioneered new breakthroughs in bat construction that will directly correlate to improved offense. Our patent pending Al technology utilizes a system of supercomputers to develop and evaluate thousands of inner wall variations. The result is the most optimal, finely tuned barrel design made to date. This process results in increased precision and consistency to ensure you're getting the most out of each at bat.

Red Alloy+: Utilizes the most responsive aerospace-grade alloy, built for performance and durability with the thinnest walls possible.
Swing Weight: Pure velocity carbon composite material optimizes the swing weight while elongating the sweet spot.
Generative AI Technology: Patent pending AI generated technology that finely tunes the performance of the bat 1/8" by 1/8" across the entire bat providing maximum performance over a larger portion of the barrel.

Practice longer with a ball that's strong enough to keep up with you. The new Rawlings Ultimate Practice Baseball is designed to have a game-like feel, but last through hit after hit after hit—no matter the field conditions.

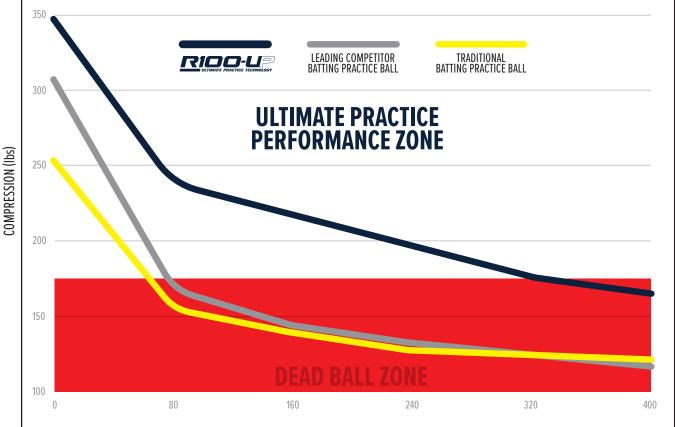

WEATHER RESISTANT MOLDED COVER MINIMIZES WEIGHT GAIN DUE TO MOISTURE.

**EASIER TO CLEAN** HARD NON-POROUS SURFACE MAKES IT MUCH EASIER TO CLEAN THAN A TRADITIONAL SEWN BASEBALL
