## **SOLUTIONS FOR A MOBILE MASTERCHEF**

You may be far from home, but that doesn't mean you can't enjoy a delicious home-cooked meal using local ingredients. Dometic helps make your journey even more pleasurable with a range of innovative solutions for your kitchen. One of the challenges of cooking on the move is having enough room to do the job. Making the most of very little space is something our designers think about a lot. That's why our hob and sink combinations with a glass lid are so popular. You lift the lid up when it's time to cook or clean – and when the lid is lowered you have an extra surface for preparation. Smart design.

# DOMETIC INTRODUCE A REVOLUTION FOR THE RV KITCHEN SPACE

## DOMETIC SLIDE OUT KITCHEN

Extensive research and development were undertaken when designing the Dometic Slide Out Kitchen, resulting in some seriously impressive features, including a modular construction that is approximately 40% lighter than similar units in the market. Fitting is simple, with a three-step installation method, and is compatible with all popular access doors. A range of optional accessories is available to maximise the functionality of the Dometic Slide Out Kitchen, including a BBQ plate, serving tray, chopping board, cup holder, bottle opener, and utensil holder.

Dimensions (W x H x D) mm: 600 x 335 x 1670  
Weight: 44 kg
