

Your patio, we take care of it!

You choose, you create...

What is Hospitality Patio Service?

We all want to be outdoors as much as we can, and if we are outside, we like to be as comfortable as possible.

At HPS, we understand that, and we also understand that it takes a lot for a hospitality business to be able to provide that comfort in style for your guests. It is with this in mind why we have created this beautiful hospitality patio service program! HPS takes away the stress and time hospitality business owners have to deal with keeping an outdoor area in top condition. Which is why we will take care of every aspect of your patio furniture on your behalf.

With our own transport, we will deliver your patio furniture when you need it and at a time that best fits your schedule. We will position your furniture in your outdoor area according to a preplanned layout, and we will take care of any issues your furniture encounters over the course of the season.

If for example, a chair needs to be repaired or replaced, you will be covered for the duration of your contract with HPS. At the end of the season, we will collect your furniture to our warehouse, where it will be professionally cleaned and checked at our facility before it is stored. All items will be placed and sealed on pallets, and we will make sure you receive your furniture back in superb condition. You can then relax, in the knowledge that we will make sure everything is in perfect condition.

When you are ready for the next season simply call us and we'll arrange to deliver at your convenience!

You choose, you create...

What materials does HPS use?

HPS work exclusively with TULP Outdoor, a specialty outdoor furniture brand, that only uses the best materials available. HPS have partnered with TULP to design a hospitality line that meets all standards and needs for intensive use. Powder coated aluminum, Sunbrella fabrics, quick dry foam and certified teak to make a unique collection specifically designed for hospitality. Our program allows you to combine our collection of materials & fabrics across our model range to suit your own needs and requirements.

You can choose your table bases in either aluminum or teak. Then you specify the table top in a High-Pressure Laminate (HPL) or teak, with or without an umbrella hole. Finally, you choose chairs to compliment your bases and table tops and know that when you're ready for the season ahead, we'll deliver all of you furniture and position it to your preferred layout.

We strive to be flexible with all our outdoor furniture, which is why we offer you the choice of specifying your ideal setup. At HPS **you choose, you create...**

How does the contract work?

We will create a 36-month contract with all the services included within the time specified. At the start, you pay a deposit and you pay for the duration of your contract monthly. At the end of the contract, you own your furniture and are free to decide what to do. If you would like to continue with our HPS program, we can offer you a service contract or trade your existing furniture into a new contract. It's all up to you; all options are possible! Please contact us if you would like to go over your needs or simply go to the website to get a quote.

HPS works exclusively with **TULP OUTDOOR**
