

## PRODUCT DESCRIPTION

**SIDEWALK CLEANER GUM & TAR REMOVER** is ideal for concrete walkways, sidewalks, and driveways. As it is a multi-purpose stain remover, **SIDEWALK CLEANER** will save labor and time on these almost impossible stains.

**REMOVES:** Chewing gum, tar and asphalt, oil stains, tree sap, walkway traffic area stains, and other organic stains.

## DIRECTIONS FOR USE

Spray undiluted on chewing gum and after a 5 minute dwell time can be removed with a putty knife or rinsed with a power washer. Repeat should there be any shadow stains. For tar, spray undiluted and keep wet with additional product as needed for 15-30 minutes. For thick deposits scrape, otherwise can be power washed off. Repeat as necessary. For organic stains such as sap, berries, or leaves and heavy oil stains, spray on undiluted and after a brief dwell time agitate with a scrub brush and rinse with a power wash.

For lighter jobs, **SIDEWALK CLEANER** can be prediluted with water and applied to the surface or it can be used with a power washer as the detergent. After cleaning, rinse all surfaces adequately as to not leave any residue.

## KEEP OUT OF REACH OF CHILDREN

Do not handle until all safety precautions have been read and understood. Use eye, face, and rubber glove protection when handling these contents. Do not store at temperatures above 120°F. Do not allow to freeze. See other side panel for additional precautions.
