

FUTURE HARVEST NUTRIENTS

Product Data Sheet

DILUTION RATE:

Use 1 ml per litre or 1 cc per quart of nutrient solution throughout the lifecycle.

GUARANTEED ANALYSIS:

Calcium (Ca) 3%

Magnesium (Mg) 1%

Derived From:

Calcium Chloride, Magnesium Chloride.

GROWTH STAGE:

Rooting

Vegetative

Flowering

FOR USE IN:

Soil

Coco

Hydroponics

FREQUENCY:

Pre-treatment

Every feeding

ORGANICAL MAGIC

Boosting Calcium levels has been a long standing practice in the hydroponic industry. However, since most naturally occurring forms of Calcium are insoluble, organic growers have been forced to use slow release sources of Calcium.

Taking inspiration from our Calnesium product, Future Harvest searched the world for a source of naturally occurring Calcium which would be 100% soluble in water. To complement the Calcium, the product also contains a source of mineral based Magnesium.

Organical Magic is compatible with most quality brand nutrients.

KEY FEATURES

- 100% soluble for rapid treatment of Calcium and Magnesium deficiencies.
- An OMRI listed product for the use in organic growing that has the power of a synthetic fertilizer.
- Strengthens plant cells and tissues for increased resistance to stress.
- Increases flower and fruit sets.
- Increases Chlorophyll production.

SIZE	HEIGHT X WIDTH	WEIGHT
500 mL	7.5 in x 2.5 in	1.3 lbs
1 L	9.0 in x 3.0 in	2.4 lbs
4 L	12.5 in x 6.3 in	10.1 lbs
10 L	14.5 in x 8.5 in	25.1 lbs
20 L	16.0 in x 10.0 in	50.3 lbs
