## **The Story of our Amish Made All Weather Poly Furniture**

For centuries the Amish have been making beautiful, durable furniture. Now, using modern high quality materials, this tradition of fine craftsmanship continues with our wide selection of poly outdoor furniture. Crafted in shops in the Heartland of America our weather resistant furniture is fully weather resistant. It is guaranteed not to fade, splinter, split or crack. Plus, with stainless steel marine grade hardware, it's guaranteed not to rust in the most harsh conditions.

Even more important than the materials and process is the people. These pieces are lovely handcrafted in the Amish tradition by Amish craftsmen and women on their family farms. Even the children often make a contribution to the process! So, when you buy a chair (or a pallet of chairs), you are helping to support this fine tradition, and even finer folks.
