

“WA” SYSTEM (Wheel Attachment)

STEP-BY-STEP INSTRUCTIONS

1. Gather the necessary tools.

2. Use guides to attach WA Board to pottery wheel.

3. Roll out your slab of clay.

4. Transfer your rolled slab onto the WA Board.

5. Compress your slab on WA Board with rib tool.

6. Remove WA Board and place WA Master on wheel.

7. Place WA Spacer, Pin and round form on Master.

8. Drape compressed side of slab over form

9. Gently mold your clay around your form.

10. Use Sue Tool to mark clay with desired lip width.

11. Use knife to cut the lip and to cut a foot ring.

12. Remove foot ring and add to the top without scoring.

13. Shape and trim foot ring and lip with a damp sponge.

14. Use modeling tool to clean up any excess clay.

15. Lift WA from wheel, press center space from bottom.

16. Transfer form back to WA board and shape your lip.
