

# Local Shipping Rates

Thank you for your interest in our products. Our website is designed to automatically calculate shipping charges by UPS and/or Canada Post for any orders weighing up to 150 lbs. For orders over 150 lbs, shipping will be calculated manually and you will be provided with a quote before you confirm your order.

***We realize that shipping heavy items like boxes of clay and bags of raw materials comes with it's challenges, and that the transportation portion of your invoice can be significant. Following you will find pricing and instructions for our customers located locally.*** For customers outside our local area, check out the document "Tucker's Shipping Pricing and Tips" for tips on minimizing shipping costs. We also encourage all our customers to read the document titled "Receiving Your Order And Damage Claims".

## ✓ SMALL SHIPMENTS:

Most small shipments are sent by UPS. Standard UPS service is generally 1-2 days in the GTA, and most small packages can be shipped for less than \$20. If our website has pre-calculated shipping for you and there is a less expensive alternative, or a faster alternative for the same price, we will manually adjust your order to take advantage of the cost or speed, and refund you any applicable difference.

## ✓ LARGE SHIPMENTS:

In the GTA, orders that include clay and/or equipment are generally delivered by either Jet Transportation (the owner/driver's name is Hamilton), or On The Go courier (Adam). Hamilton or Adam will gladly place your order where you like. However, if there is significant extra labour to get your order in place (ie they cannot park close to your location, you ask them to deliver upstairs or by elevator, etc) there may be extra charges. If you feel your desired delivery service may require significant extra labour, please let us know in advance and we will quote you accordingly.

### The following is standard pricing as of the time of print:

1-2 boxes	\$ 25.00
3-10 boxes	\$ 45.00
11-20 boxes	\$ 80.00
