

# **MATERIAL SAFETY DATA SHEET**

Ferro Corporation 4150 East 56th Street Cleveland, Ohio 44105 USA **Emergency telephone number** 

CHEMTREC: 1-800-424-9300 CHEMTREC (outside U.S.): 1-703-527-3887

Plant Number: 1-216-641-8580

## IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

3124-2 Glaze Frit 50 Lb bag **Product Name:** Date of Preparation: 10/23/2014

**Chemical Name:** 

Glassy mixture of particle size reduction after milling. Synonym

65997-18-4 CAS-No.:

Formula: TSCA Description: "Frit is a mixture of inorganic chemical substances produced by rapidly

quenching a molten, complex combination of materials, confining the chemical substances thus

manufactured as non-migratory components of glassy solid flakes or granules."

**Product Code:** 1024690

#### 2. HAZARDS IDENTIFICATION

### **Emergency Overview**

### WARNING

Avoid dust formation. Do not breathe vapours/dust. May cause respiratory tract, eye and skin irritation. Contains crystalline silica which causes silicosis and lung cancer.

		HMIS	NFPA 704
Color: White	Health:	2*	2
Physical Powder	Flammability:	0	0
state:	Physical Hazard:	0	0
Odor: Odorless	PPE:	Е	

# **Potential Health Effects**

Principle routes of exposure: Inhalation, ingestion, skin and eye contact.

Eye contact: Contact with eyes may cause irritation.

Skin contact: Prolonged skin contact may cause skin irritation.

Inhalation: Dust or fumes from firing irritating to respiratory tract. Fumes may cause lung inflammation.

May irritate digestive tract. Ingestion:

Excessive inhalation of fumes or dust may cause chemical pneumonitis, cyanosis, and **Chronic toxicity:** 

> pulmonary edema. Respirable crystalline silica has been classified as a Group I (sufficient evidence in humans for carcinogenicity) carcinogenic by IARC and is listed by NTP as a substance which may reasonably be anticipated to be a carcinogen. Long term inhalation

causes lung damage (silicosis and cancer).

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS Number	Weight %
Frit*		100% (May contain - see below)
Quartz silica	14808-60-7	<0.5%

<sup>\*</sup> Frit, with CAS # [65997-18-4], is a mixture of inorganic chemical substances produced by rapidly quenching a molten, complex combination of materials, confining the chemical substances thus manufactured as non-migratory components of glassy solid flakes or granules. These components are present as part of the Frit.

#### 4. FIRST AID MEASURES

Eye contact: Rinse immediately with plenty of water, also under the eyelids. Get medical attention if irritation

develops.

**Skin contact:** Wash off immediately with soap and plenty of water. Remove and wash contaminated clothing

before re-use. If symptoms persist, call a physician.

**Inhalation:** Move to fresh air. If breathing is difficult, give oxygen. If symptoms persist, call a physician.

**Ingestion:** Drink plenty of water. Do not induce vomiting. Consult a physician if necessary.

Notes to physician: Treat symptomatically.

#### 5. FIRE-FIGHTING MEASURES

Flash point (°C): Non combustible

Suitable extinguishing media: The product itself does not burn. Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment.

**Hazardous decomposition products** 

under fire conditions:

Heavy metal compounds.

Special protective equipment for

firefighters:

As in any fire, wear self-contained breathing apparatus (pressure-demand, NIOSH approved or

equivalent) and full protective gear.

Unusual hazards: None known.

# 6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Avoid dust formation. Do not breathe vapors/dust. Remove all non-essential people from the

affected area. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin, eyes and clothing. Wear personal protective

equipment.

**Environmental precautions:** Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do

not flush into surface water or sanitary sewer system. Do not allow material to contaminate

ground water system.

Methods for cleaning up: Wear personal protective equipment. Use approved industrial vacuum cleaner for removal.

Clean contaminated surface thoroughly. Dispose of promptly.

## 7. HANDLING AND STORAGE

## Handling:

Avoid dust formation. Do not breathe vapors/dust. Handle in accordance with good industrial hygiene and safety practice. Use only in area provided with appropriate exhaust ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Do not eat, drink, or smoke in areas of use or storage. Do not take internally. Wash thoroughly after handling.

## Storage:

Keep in a dry, cool and well-ventilated place.

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Exposure limits**

Minimize exposure in accordance with good hygiene practice.

Components	OSHA PEL	ACGIH
Frit	0.5 mg/m <sup>3</sup> TWA Sb	Not established
	5 mg/m <sup>3</sup> TWA Zr	
	5 mg/m <sup>3</sup> Ceiling Mn	

\_\_\_\_\_

Components	OSHA PEL	ACGIH
Quartz silica	0.1 mg/m <sup>3</sup> TWA (respirable dust)	0.025 mg/m <sup>3</sup> TWA respirable fraction

**Engineering measures:** Provide appropriate exhaust ventilation at machinery and at places where dust or fumes can

be generated. Ensure that eyewash stations and safety showers are proximal to the work-

station location. Ensure adequate ventilation, especially in confined areas.

**Eye protection:** Safety glasses with side-shields.

Skin and body protection: Lightweight protective clothing. Keep working clothes separately. Remove and wash

contaminated clothing before re-use.

Hand protection: Impervious gloves. Follow the recommendations given by the manufacturer of protective

gloves.

Respiratory protection: In case of insufficient ventilation, wear suitable respiratory equipment. NIOSH-approved

respirators should be worn where engineering controls and work practices do not reduce exposure to or below the PEL. Seek professional advice prior to respirator selection and use.

**Hygiene measures:** Wash hands before breaks and at the end of workday.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Color: White Physical state: Powder

Odor: Odorless Molecular weight: No data available Boiling point/range (°C): No data available pH: No data available Melting point/range (°C): No data available Specific gravity (Water =1): No data available Vapor density: Non-volatile Vapor pressure : No data available

Evaporation Rate (Water = 1) Non-volatile Water solubility: Insoluble

VOC content 0

## 10. STABILITY AND REACTIVITY

Stability: Stable at normal ambient temperatures and storage conditions.

Polymerization Will not occur.

Hazardous decomposition products: No decomposition if stored normally. Thermal decomposition can lead to release of irritating

gases and vapors. Heavy metal compounds.

Materials to avoid: None known.

Conditions to avoid None known.

## 11. TOXICOLOGICAL INFORMATION

Acute toxicity: Information given is based on data on the components and the toxicology of similar products.

Chronic Toxicity: Contains crystalline silica which causes silicosis and lung cancer.

Carcinogenic Effects: Respirable crystalline silica has been classified as a Group I (sufficient evidence in humans for

carcinogenicity) carcinogenic by IARC and is listed by NTP as a substance which may reasonably be anticipated to be a carcinogen. Crystalline silica is also a known cause of silicosis, a non-cancerous lung disease caused by excessive exposure to crystalline silica.

Component information, if any, is listed below

Frit

LD50s and LC50s: Oral LD50 (Rat) = 2000 mg/kg
NTP: Known Human Carcinogen

NTPS. Carcinogen: Reasonably Anticipated To Be A Human Carcinogen

IARC - Group 1: Listed
IARC - Group 2A: Listed
IARC - Group 2B: Listed

Quartz silica

**LD50s** and **LC50s**: Oral LD50 (Rat) = 500 mg/kg

OSHA - Select Carcinogens: Present

NTP: Known Human Carcinogen

IARC - Group 1: Listed

## 12. ECOLOGICAL INFORMATION

Aquatic toxicity: No data is available on the product itself. Information given is based on data on the

components and the ecotoxicology of similar products.

Persistence and degradability: No information available.

## 13. DISPOSAL CONSIDERATIONS

Waste from residues / unused

products:

Waste must be disposed of in accordance with federal, state and local environmental control

regulations. Where possible recycling is preferred to disposal or incineration.

# 14. TRANSPORT INFORMATION

DOT (U.S.)

Proper shipping name: Not Regulated

TDG (Canada)

Proper Shipping Name Not Regulated

IMDO

Proper Shipping Name Not Regulated
