

COLORFUL STENCIL TILES

With AMACO's **NEW**
Ceramic Printing Inks!

MATERIALS

- AMACO Ceramic Printing Inks
- Lead Pencil
- Plastic Stencil
- Low Fire Bisque Tile
- Paintbrush or Sponge
- AMACO LG-10 Clear Transparent

STEPS

- 1 Draw a diagonal line from corner to corner with a pencil on a bisqued tile, creating an X.
- 2 Center your stencil on the tile.
- 3 Buy a stencil brush or make your own (you can also use a small sponge).
- 4 Use a stencil brush or small sponge to apply AMACO Ceramic Printing Inks.
- 5 Colors can be blended!
- 6 Add as many additional colors as you would like.
- 7 Remove the stencil and add 3 coats of AMACO LG-10 Clear Transparent.
- 8 Fire tile to Cone 05.
